CAREER SUMMARY

An accomplished MEAL, Program manager, Data and technology professional with years of extensive experience in Monitoring and Evaluation, data administration, data analytics and data science. With a robust background in both M&E and data management, consistently demonstrating a unique ability to bridge the gap between raw data and actionable business insights, while also creating an interactive dashboard. My expertise spans across multiple domains, making me a versatile and asset in any data-driven environment.

PROFESSIONAL EXPERIENCE

DHIS2 Consultant – Sierra Leone-DHIS2 Integration

Ehealth4everyone, October 2025 – till date

Key Achievements:

- Successfully implemented Sierra Leone national DHIS2 (HMIS) and LMIS integration system, increasing data reporting rates by 80% and improving data quality.
- Developed and deployed a custom DHIS2, enhancing data analytics and visualization capabilities.
- Collaborated with stakeholders to improve data exchange and interoperability between DHIS2 and other health and Logistic systems.
- Provided technical support and conduct training of Trainers (ToT) to National and district leads, improving system adoption and proficiency.
- Developed and implemented data quality dashboards, reducing data errors by 30%.
- Supported the integration of DHIS2 with other health information systems, improving data sharing and use.
- Contributed to the development of country-specific DHIS2 best practices and guidelines.

Palladium International, January 2025 – September 2025

Achievements:

- Created and maintained policies, procedures and standards for data quality.
- Enforced data quality standards, including data formation, validation, and documentation.
- Verified data management practices comply with organizational policies.
- Informed supervisor of data quality problems.
- Generated regular/ daily reports on data quality metrics, issues, and improvements.

Strategic Information Assistance (MEAL) – USAID-ICHSSA4

Pro Health International, July 2023 – January 2025

Key Responsibilities and Achievements:

- **Comprehensive Program Monitoring:** Successfully monitored and evaluated an integrated project focusing on HIV, GBV, TB, Covid-19, Household economics strengthening, and Education. Ensuring effective implementation and progress tracking.
- **Partner Organization Management:** Provided technical support and oversight to five M&E teams and Case Monitors from partner organizations, enhancing their capacity to collect, analyze, and utilize data for program improvement.
- **Stakeholder Engagement:** Fostered strong relationships with state ministries, partner organizations, and stakeholders, facilitating effective collaboration and engagement across multiple sectors.
- **Data driven decision making:** Developed and implemented data collection tools, analyzed data, and provided actionable insights to inform programmatic decisions, improve service delivery, and optimized resource allocation.
- **Capacity Building:** Conducted training and capacity building sessions for M&E staff from partner organizations, enhancing their skills in data collection, analysis, and reporting.
- **Program improvement:** Identified areas for program improvement and provided recommendations to stakeholders, contributing to enhanced program effectiveness and impact.
- **M&E System Strengthening:** Contributed to the development and strengthening of M&E systems, ensuring that data collection, analysis, and reporting processes were robust, efficient, and effective.

M&E / Strategic Information– Intern

Pro Health International, May 2022 – June 2023

Key Responsibilities and Achievements:

- **Data Entry:** Supported Strategic Information Unit in quarterly data entry [DHIS2] and the web version.
- **Documentations:** Supported Documentation, Reporting, Knowledge Sharing and Effective Feedback Mechanism.

- **Distribution Of data Collection Tools:** Supported in distributing data collection tools and management of data collections tools inventory.

Industrial Training (IT)

Collins Computer Technology, November 2018 – November 2019

Key Responsibilities and Achievements:

- **File Management & Organization:** Organized and backed up office files on shared drives, making it easier for staff/trainees to locate documents and reducing time spent searching by 40%.
- **Data Entry & Spreadsheet Work:** Entered and cleaned data in Excel, using basic formulas to generate weekly reports with fewer errors than manual entry.
- **Technical Support:** Assisted staff/trainees with basic PC troubleshooting, software installation, and printer setup, resolving common issues on the spot and minimizing downtime.
- **Internet & Email Use:** Managed official emails and conducted online research for projects, ensuring timely communication and accurate information gathering.
- **Document Formatting:** Prepared and formatted reports, memos, and presentations in MS Word and PowerPoint, improving document consistency and professionalism.
- **Team work:** Developed teamwork, leadership, interpersonal communication, and workplace collaboration skills necessary for professional growth.
- **Maintainance and Backup:** Learned the importance of data protection, file recovery procedures, and effective information management practices.
